

# HOW TO FIX COMMON PLUMBING LEAKS AT HOME

Ace Plumbing has been a reputable and reliable company for [Sacramento plumbing services](#) for over 20 years. Our team of certified plumbers is committed to delivering solutions, from water heater repairs and drain cleaning to pipe installations.

## IDENTIFY THE LEAK

- Check faucets, pipes, and appliances for signs of dripping or pooling water.
- Use a flashlight to inspect hidden areas under sinks or behind appliances.

## GATHER NECESSARY TOOLS AND MATERIALS

- Tools: Adjustable wrench, pipe wrench, pliers, screwdriver.
- Materials: Pipe tape (teflon tape), plumber's putty, replacement washers, or fittings.

## FIX A LEAKY FAUCET

- Disassemble the faucet using a wrench or screwdriver.
- Replace damaged washers, O-rings, or seals.
- Reassemble the faucet and test for leaks.

## REPAIR PIPE LEAKS

- Temporary Fix: Apply pipe tape or a rubber patch and secure it with hose clamps.
- Permanent Fix: Cut out the damaged section and replace it with a new pipe or coupling.
